Touchless Identity, Seamless Access

Delivering a touchless access experience that makes the new workplace secure, healthy and convenient.

05/04/2022

safetrust

Safetrust is the leading provider of virtual credential solutions for Enterprise, Commercial Real Estate, Education and Government Buildings. Powering connected workplaces around the globe, Safetrust gives employees, members and tenants frictionless access through secured doors, elevators, turnstiles and more using their smartphone or wearable, eliminating the need for PIN codes, passwords and traditional ID cards which are easily lost, forgotten or compromised.

OVERVIEW

Simple, Secure, Affordable Migration

Migrate to a mobile access environment with Safetrust by leveraging your existing legacy infrastructure for the fastest deployment of Bluetooth Mobile Access on the market. With Safetrust, organizations are reducing the costs of traditional card deployment, creating seamless hands-free access experiences from lobby to desk, and providing additional information that allows organizations to better manage their Resources, Assets and People.
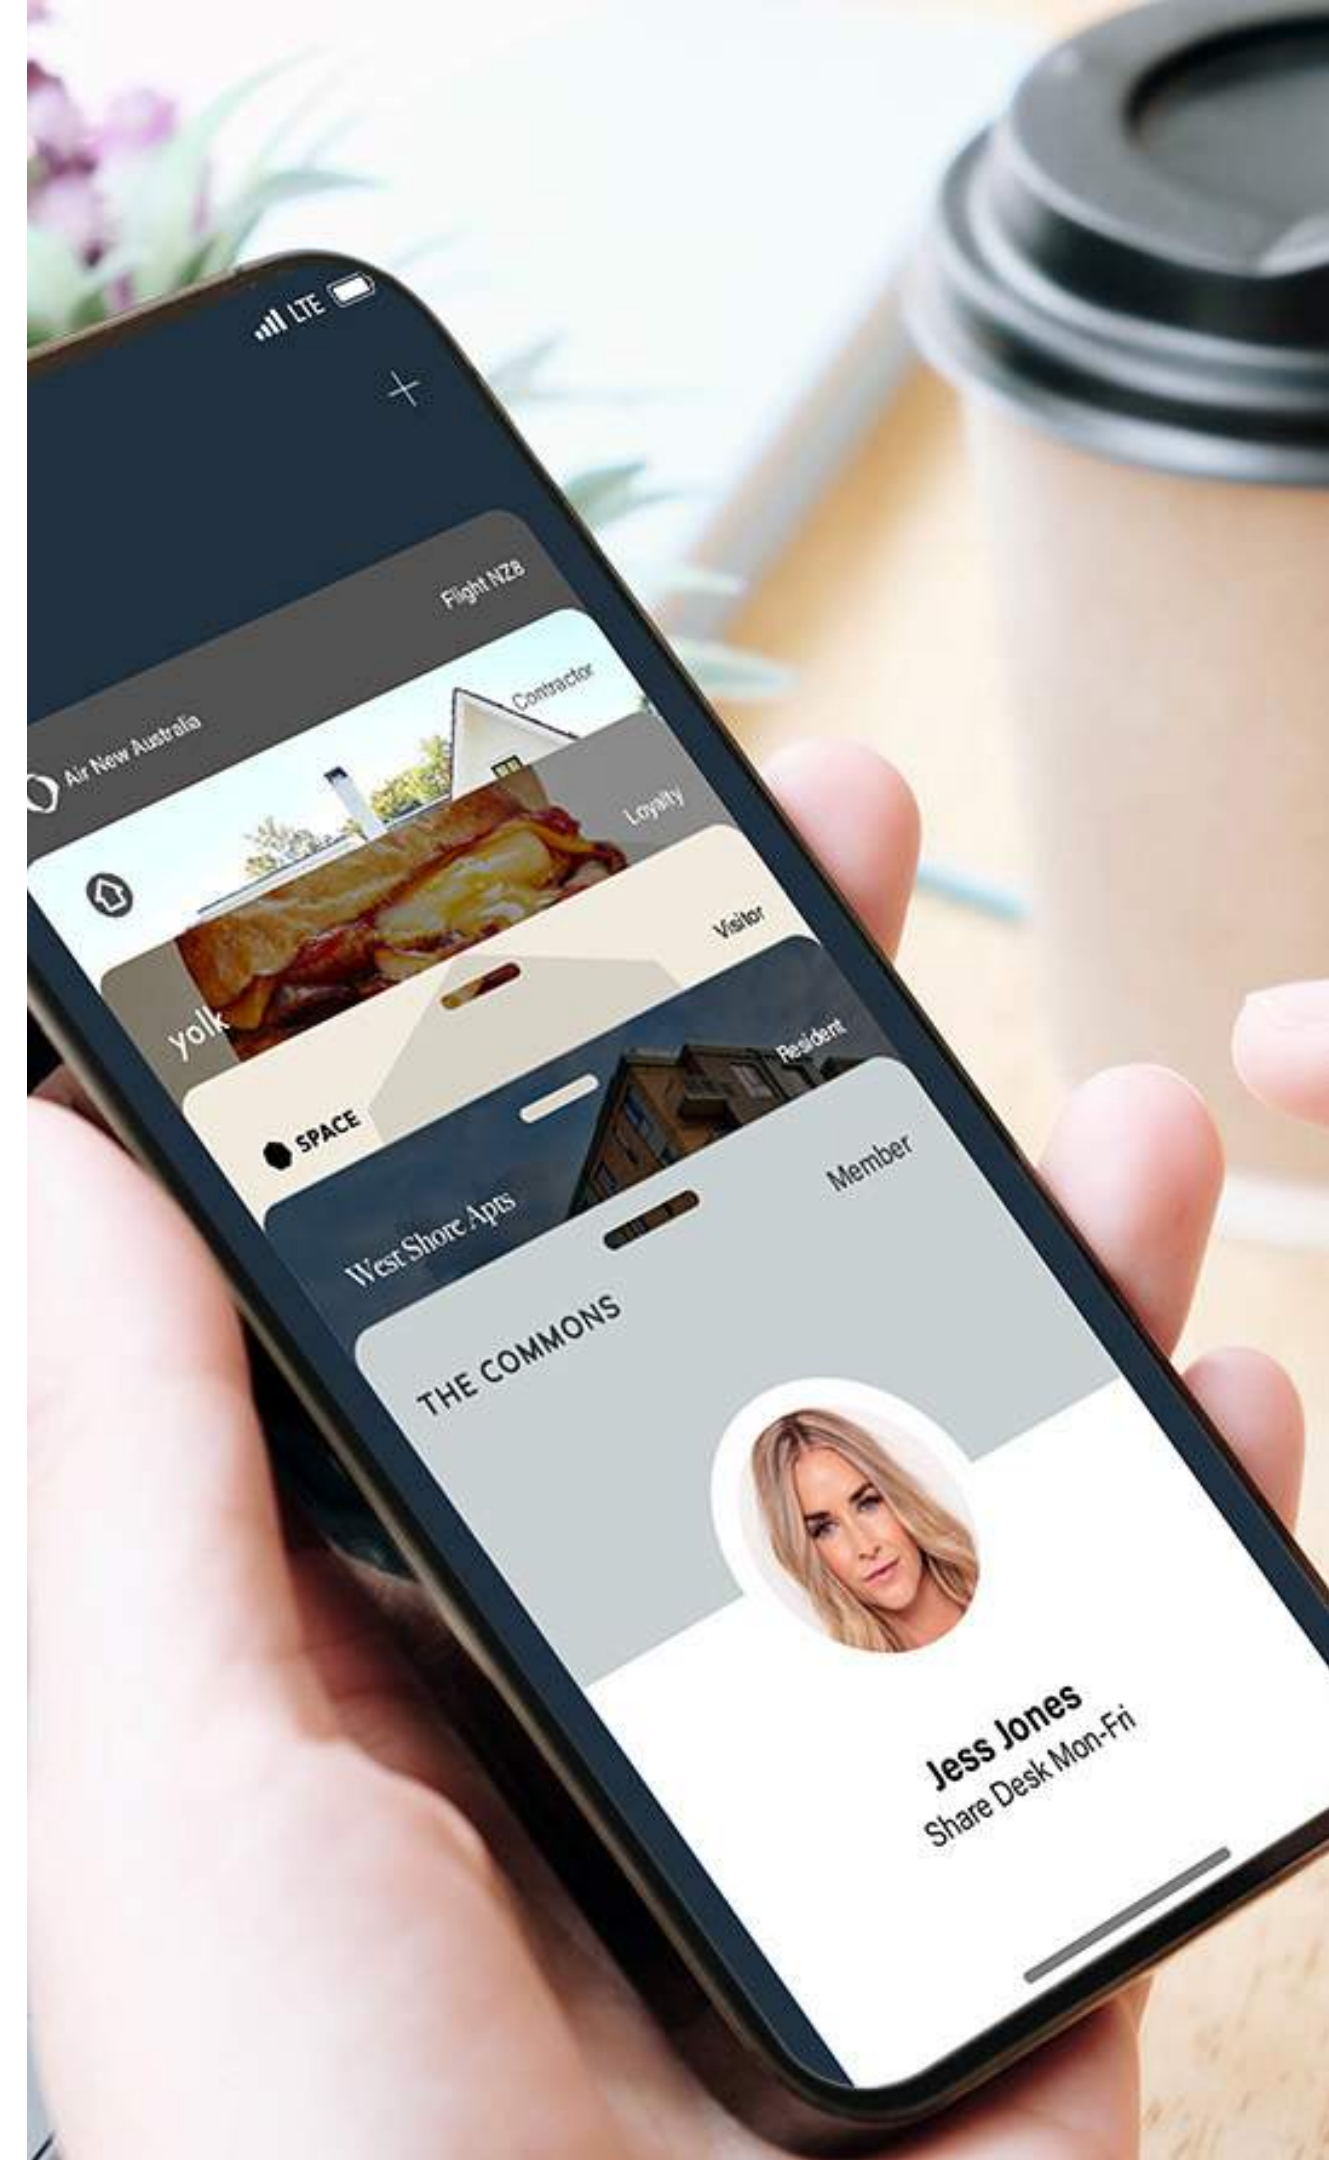

YOUR DIGITAL IDENTITY

Seamless Access, Your Way

The Safetrust Wallet holds your secure virtual identity, providing touchless access to your premises, resources, and more. Create a hands-free workplace that eliminates community touch points and legacy card vulnerabilities, improves business resource intelligence and protects employees and visitors with contract tracing technology.

SOLUTION VERTICALS

Build Smarter, Safer Spaces

Enterprise

Create a hands-free workplace that eliminates community touch points and legacy card vulnerabilities, improves business resource intelligence and protects employees and visitors with contract tracing technology.

Commercial Real Estate

The fastest and most reliable touchless access experience from lobby to desk, simplifying cross-tenant access management, securing facilities and improving building resource intelligence.

Government

Provide federal employees and contractors with frictionless access to secured areas and resources. Simplify card issuance and management with secure OTA credentials, eliminating lost card vulnerabilities and enabling historical presence and proximity records of your staff.

Education

Give students and faculty an intuitive, touchless access experience or campus building access, cafeterias, secure printing, student amenities, and much more.
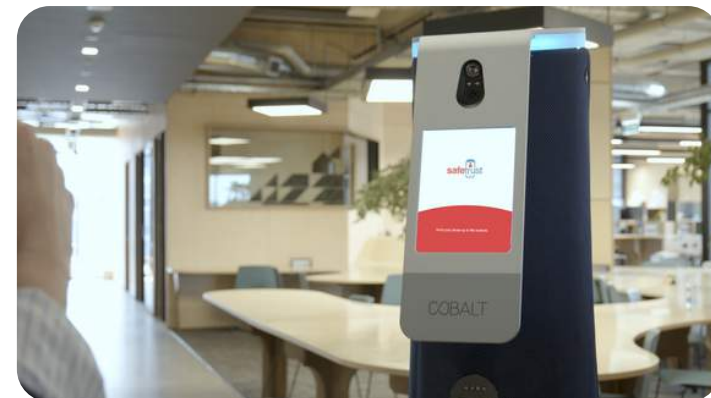

Offices

Turnstiles

Elevators

Visitor Check In

Meeting Rooms

Parking Garages

APPLICATIONS

Seamless authentication to your premises and resources

Safetrust's hardware solutions upgrade your existing access points for touchless access within minutes.

- Extend and repurpose your legacy readers for touchless access

- Continue to support all existing card types

- Eliminate the cost and time associated with rip-and-replace

What Makes Safetrust Different?

Strengthen building security

No more tailgating. No lost access cards. Your access identity and information goes through layers of encryption to ensure your data remains safe and secure, with non-credentialed individuals identified in real time.

Retrofit, rather than replace

Upgrade your existing legacy readers for touchless access while continuing to support all existing card types. No need to rip out or replace anything, ever.

Reduce deployment time

One simple app that's easy to deploy and intuitive to use, Safetrust makes it easy to unlock a touchless workplace experience. Plus, roll-out incrementally as resources allow.

Time and cost efficiency

Reduce the costs associated with onboarding and credential lifecycle management with one streamlined platform. Over-the-air permissions at the click of a button. It's that simple.

Control spaces remotely

Create a safe, hygienic workplace that instills confidence in employees, tenants, and visitors by limiting access to specific areas when too many people are in one space.

Proximity monitoring

Utilize contact tracing technology and proximity records for all people entering your organization to confidently find and contain outbreaks before they escalate.
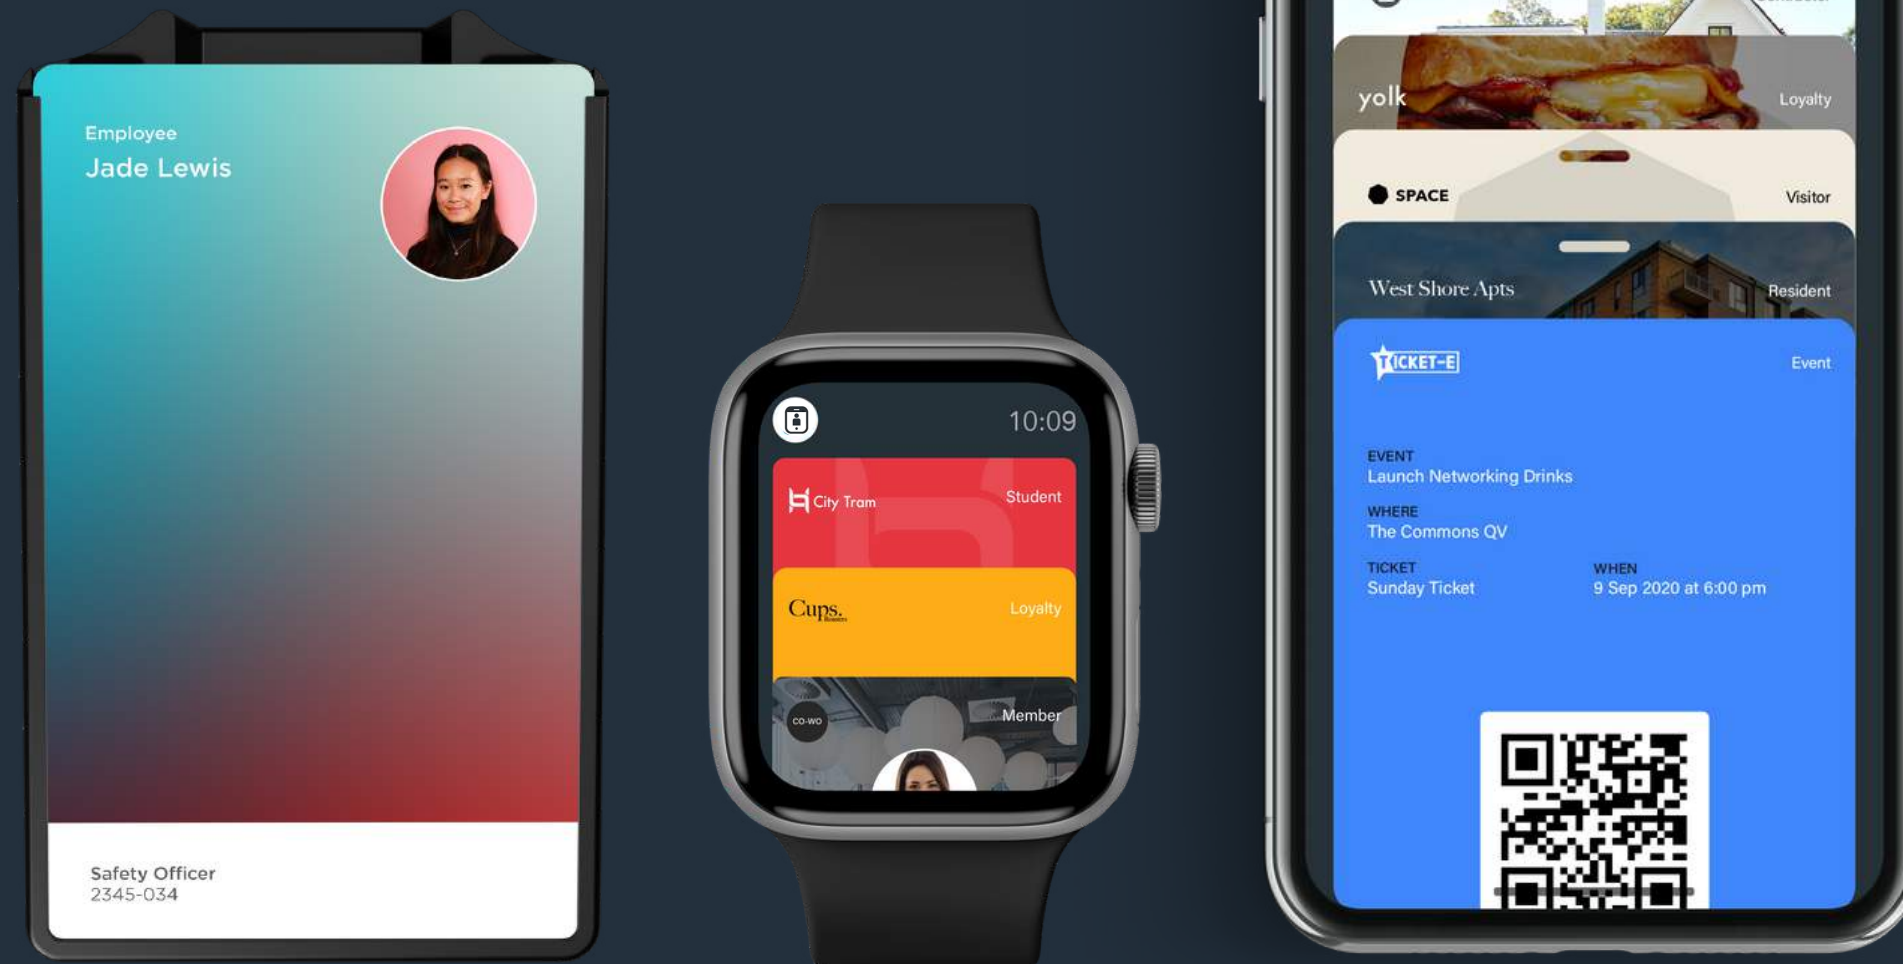

SAFETRUST WALLET

Streamline Security and Efficiency

Safetrust Mobile Access is the modern, secure way to give employees, tenants and visitors uninterrupted access, wherever they need it.

- Consolidate into a single, secure identity

- Strengthen building security

- Fast, simple deployment

- Configurable range utilization and optional additional controls for credentials based on the time of day, date, geographic location and biometric 2FA.

CREDENTIAL MANAGER

Strengthen Security, Simplify Management

Safetrust Credential Manager provides users with an all-in-one solution for managing their organization. Support an unlimited number of users, roles, groups, doors and sites from one centralized dashboard and gain valuable business intelligence from Safetrust connected sensors.

Unlimited users, doors, buildings, or sites

Safetrust Credential Manager supports an unlimited number of users, roles, groups, doors and sites from one centralized dashboard.

Manage access from any device, anywhere

Safetrust lets you control and manage access on any browser, tablet, or phone from anywhere in the world.
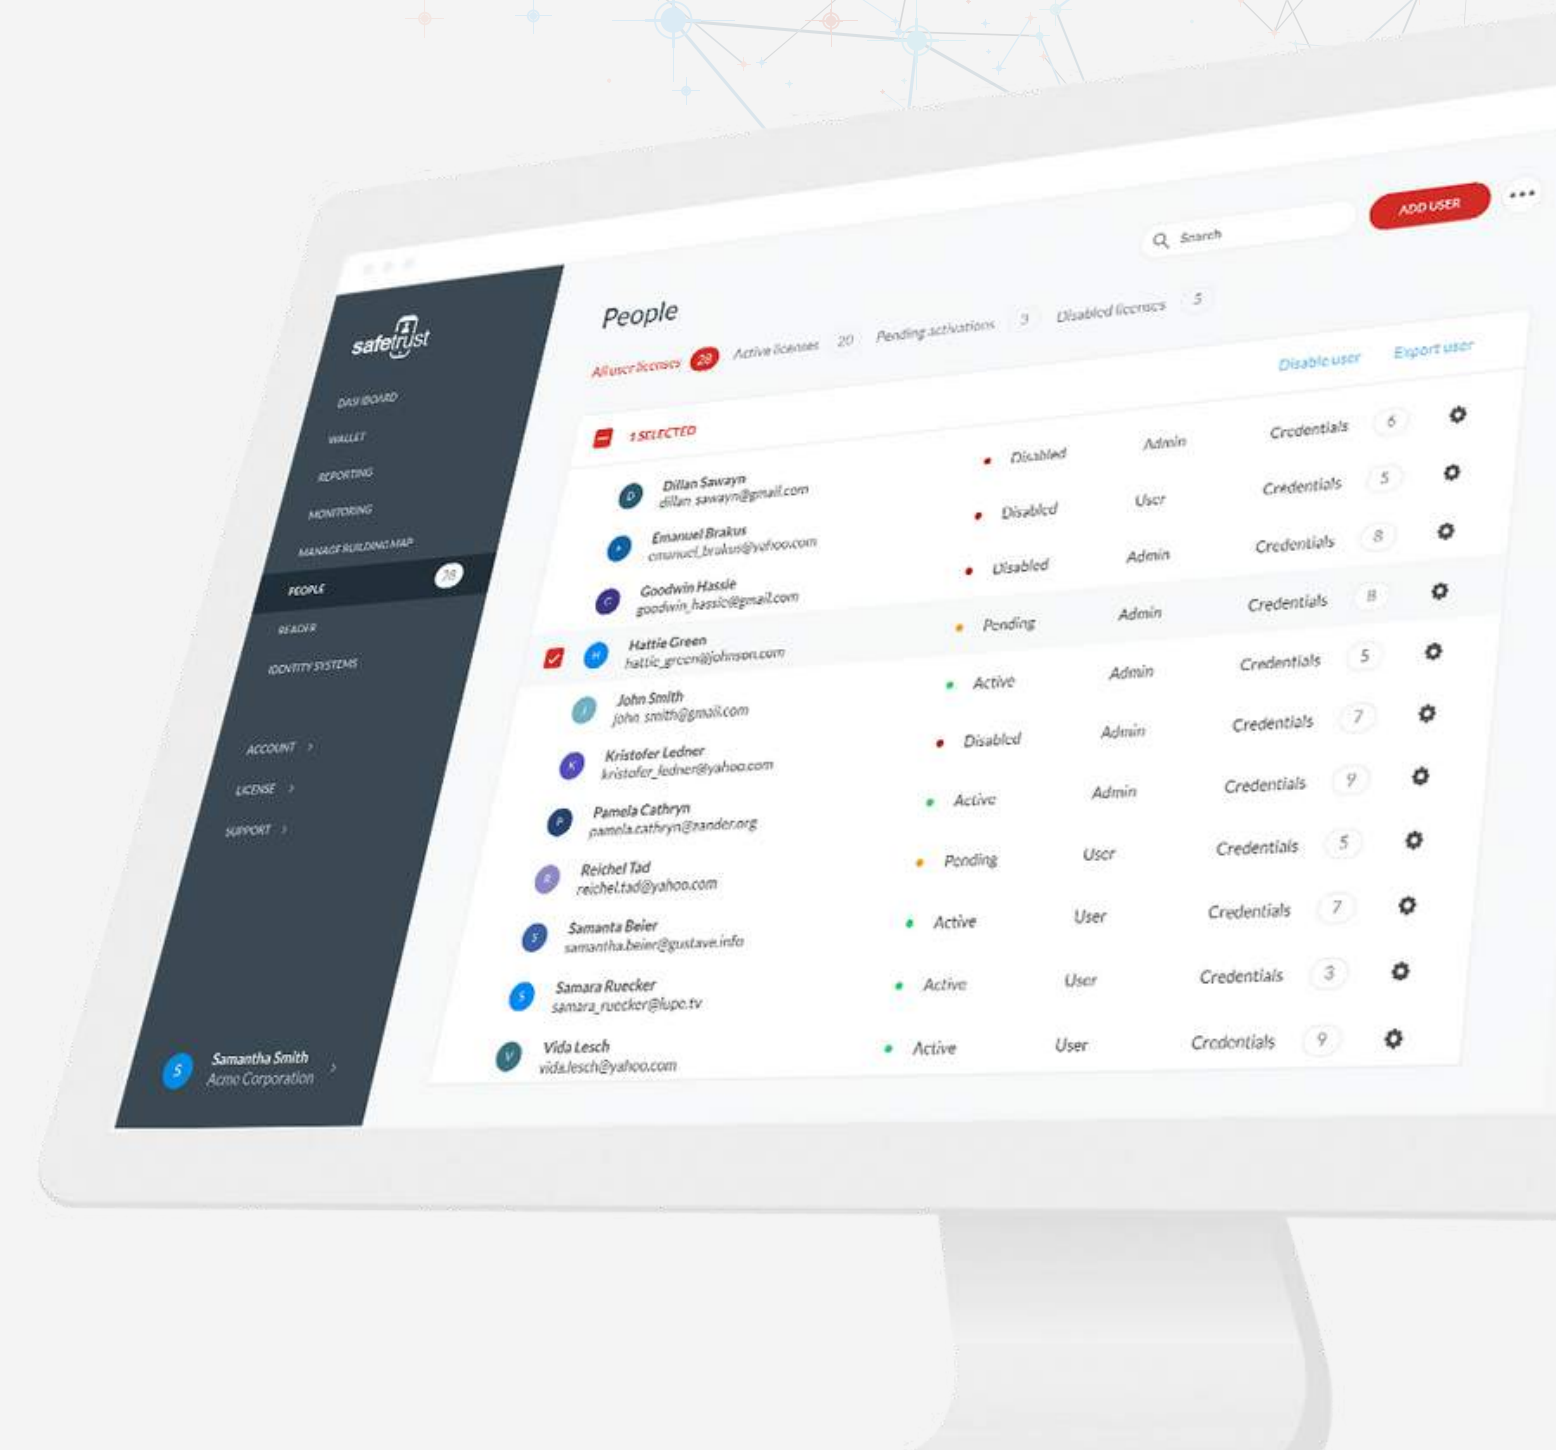

Actionable insights in real-time

Better understand and optimize the utilization of resources and assets whilst improving business intelligence with event-based analytics.

Use your existing PACS

Optionally manage your users through your existing access control system by utilizing Safetrust APIs or licensing a contractor to do it for you.

SECURITY & PRIVACY

Protecting you and your data is paramount.

- Safetrust's products are designed to comply with privacy laws in every jurisdiction in which they operate, including the California Consumer Privacy Act, European General Data Protection regulations and the Australian Government's Privacy Act.

- Safetrust's products are regularly assessed for vulnerabilities by an industry-leading third-party, providing penetration testing and attack simulations.

- Currently undergoing a NIST 800-171 cyber security assessment.

HARDWARE

Built to fit your needs

Don't Replace — Just Retrofit

Safetrust's retrofit approach allows you to maintain your prior investment and extend the ROI on your readers by upgrading and future-proofing instead of replacing.

Future-proofed

Don't deploy a deadend again. Safetrust is scalable, remotely upgradeable and leverages industry standards for interoperability.

Remote Management

Distribute firmware updates over secure WiFi, direct to all installed readers from Safetrust's cloud app, Credential Manager.

Sensors

IoT Sensor

The most advanced integrated reader and network-enabled sensor on the market today.

SABRE MODULE

Industry's first third-party upgrade for HID® iCLASS SE® and multiCLASS SE® readers.

SABRE USB

Small form reader enabling mobile desktop logon, secure print and more.

SABRE INLINE

Sits between the control panel and the reader to enable touchless access.

SABRE RELAY

Provides mobility for parking garages, remote buildings and single door offices.
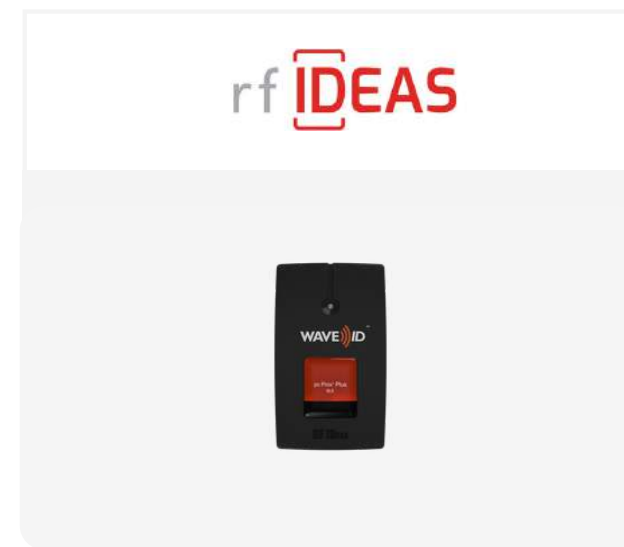

Safetrust Inside

TWN4 Palon Compact Panel

Multi-technology reader/writer with embedded Safetrust technology, supporting 125kHz/134.2 kHz and 13.56 MHz contactless technologies, including NFC.

Suitable for: Multi-door offices

RFIDeas Reader

WAVE ID Mobile Reader combines a dual-frequency programmable credential reader with embedded Safetrust technology.
Suitable for: Follow-me-print services

BSI Lock

Intelligent Standalone Lock with embedded Safetrust technology.

Suitable for: Doors not connected to a PACs

Cobalt Robot

Cobalt Security Robot with embedded Safetrust technology.

Suitable for: Building security, visitor check-in

RETURN ON INVESTMENT

Large Enterprise Case Study

Safetrust customers experience a positive impact with rapid ROI. Independent analysis proves we are cost competitive whether comparing us to your existing card program, a new card program, or industry incumbents.
